475 ROUND HILL ROAD, ROSLYN HEIGHTS, NEW YORK 11577 (516) 801-5100 FAX (516) 801-5108

January 2019

Dear local businesses,

We are Roslyn Code Club, a club at Roslyn High School that takes pride in teaching the new generation all about coding. On February 9th, from 9am to 9pm, we will be hosting an event called Roslyn Code Overload. It is a 12-hour coding event where students of various skill sets and coding levels will come together to collaborate intensively on various projects, ranging from websites to mobile apps.

However, our event is not possible without generous partners. We are asking local businesses to donate food and drinks for our event. We hope to be able to provide breakfast, lunch, and dinner with snacks and drinks throughout the event to all students. We estimate around thirty-five students will be in attendance. All donations are much appreciated, no matter how small. By donating, you will be supporting local student-led computer science education. In addition, donors will be featured on our club's website at <https://www.roslyncode.tech/>.

We would love to hear from you! Please contact us at hello@roslyncode.tech if interested.

Thank you,

Brian Ciavarella
